

LIE: LIFE IS ONLY FOR A SELECT FEW

Pro-Choicers believe in choice for themselves, but not for anybody else, particularly the baby in the womb. To agree with a Pro-Choice person is to not agree with choice for all, but choice for a select few (i.e. selfish, fornicating, pregnant women). Pro-Choicers want to make the world believe that they are champions of everyone's choice. But they are not. They are only champions of their own brand of choice. And they want the rest of the world to subsidize their murderous philosophy.

Why should the world put a stamp of approval on Pro-Choice, just because an oligarchy wants to murder babies? Why should we buy the lie that says a baby is just a clump of cells? Clumps of cells don't have heartbeats. Clumps of cells don't scream in pain.

Life is precious at all stages. To say that some stages (air-breathing) are more valuable than other stages (water-breathing) is a complete fallacy. It takes someone blind to science and morals to believe such a deceitful lie. Pro-Choicers seek to validate themselves with hypocritical logic: I'm valuable but I determine who isn't valuable.

Who gave Pro-Choicers this kind of defining power: to determine who lives and who dies? Who gave them this kingly authority to place value on some and take away value from others? Who made Pro-Choicers the sole arbiter of who gets to live and who gets to die? This is the realm of God, not men.

It is the same kind of philosophy that allows racism to exist. This is the kind of logic that says a white man can kill a black man: "I can kill you because you are not valuable to me". According to the Bible, people's value is inherent beyond skin color, size, shape, sex, religion, class, occupation, possessions, health, intelligence, talent, eye color, productivity, inside or outside the womb.

Man, including babies in the womb, are intrinsically beautiful and infinitely valuable because they are made in the image of God. No person and no Pro-Choice person has any authority, right or jurisdiction to declare a person worthy of death. Why should Pro-Choicers have the blessing of a birthday but 60 million people can't? A birthday is an intrinsic right to humanity. Not a Privilege for a select few.
